

FOR IMMEDIATE RELEASE

L.B. Bohle Opens U.S. Service Center for Tablet Coater Training and Product Trials

WARMINSTER, Pa. (Sept. 21, 2010) — Beginning in September 2010, customers can test the Bohle Tablet Coater before they buy it at L.B. Bohle's new U.S. Service Center in Warminster, Pa. Customers can demo the Bohle Table Coater's full capabilities in an environment that adheres to cGMP guidelines.

Working with Bohle's expert staff in the 2,000-square-foot Service Center, companies can train their personnel on:

- Operating the Bohle Tablet Coater;
- Process development and optimization;
- Demonstration of latest software;
- Containment application demos;
- Blending (lab and production scale); and
- Milling (cone mill, hammer mill).

Additionally, the Service Center accommodates workshops with practice trials, as well as seminars for future technologies in the pharmaceutical industry. A major developer and supplier of formulated coatings for pharmaceuticals and nutraceuticals will be the first guest of the Service Center when Bohle hosts a tablet coating seminar for them this month.

For more information about L.B. Bohle's U.S. Service Center, visit <http://www.bohle-tablet-coater.com/us-service-center.html> or call (215) 957-1240.
